

FARSHAD FATEMIFAR

GRAPHIC DESIGNER & AI CREATIVE DIRECTOR

09039204222 | farshadfatemifar1@gmail.com | [PORTFOLIO](#) | [INSTAGRAM](#) | [GITHUB](#)

PROFILE

Graphic designer with 6+ years of experience across branding, campaign design and visual identity, now directing and producing AI-powered creative work. I treat AI image, video, motion and sound tools the way I'd treat a camera or an instrument — with a clear concept, deliberate direction and consistent craft — so the final work reads as intentional, not generated. Comfortable owning a project end-to-end, from first concept through art direction, production and final delivery.

CORE SKILLS

Design & Direction

Graphic Design · Art Direction · Logo & Brand Identity · Banner & Poster Design · Motion Design · Sound Design

Software

Photoshop · Illustrator · Premiere Pro · CapCut

AI Tools

Nano Banana, Omni 1.1, ChatGPT and other AI image/video/language models

EXPERIENCE

Freelance Graphic Designer & AI Creative Director | Independent

2025 — Present

- Lead end-to-end AI-driven creative production — concept, script, prompt and shot direction, color grading and sound — for commercial films, motion pieces and social content.
- Direct AI image and video generation with the same discipline as a live shoot: consistent lighting, continuity and color across every frame, so the result reads as crafted rather than generated.
- Design and art-direct brand visuals — posters, banners, logos and identity systems — across print, digital and motion formats, running the practice end-to-end from client communication to final delivery.

Graphic Designer | Oskar Group (International Company)

2023 — 2025

- Designed visual identity and campaign assets for international markets and in-house brands (GREENLION, PORODO, POWEROLOGY, LEVELO, LEPRESSO) within a structured in-house creative team.
- Translated marketing briefs into cohesive visual concepts, balancing brand guidelines with the tone of each campaign.
- Collaborated closely with marketing, product and localization teams to keep design consistent across multiple regions and formats.
- Delivered a high volume of banners, social assets and campaign materials on tight production timelines without compromising quality.

Freelance Graphic Designer | Independent

2020 — 2023

- Delivered branding, banner, poster and digital design work directly for independent clients across a range of industries.
- Managed the full design process personally — from client brief through concept, revisions and final file delivery.
- Built long-term client relationships through dependable design work and clear communication.
